

# Colouring time!

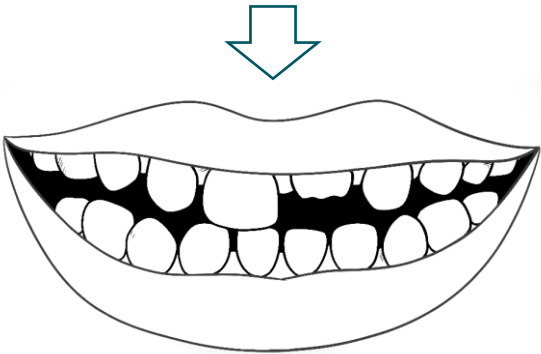

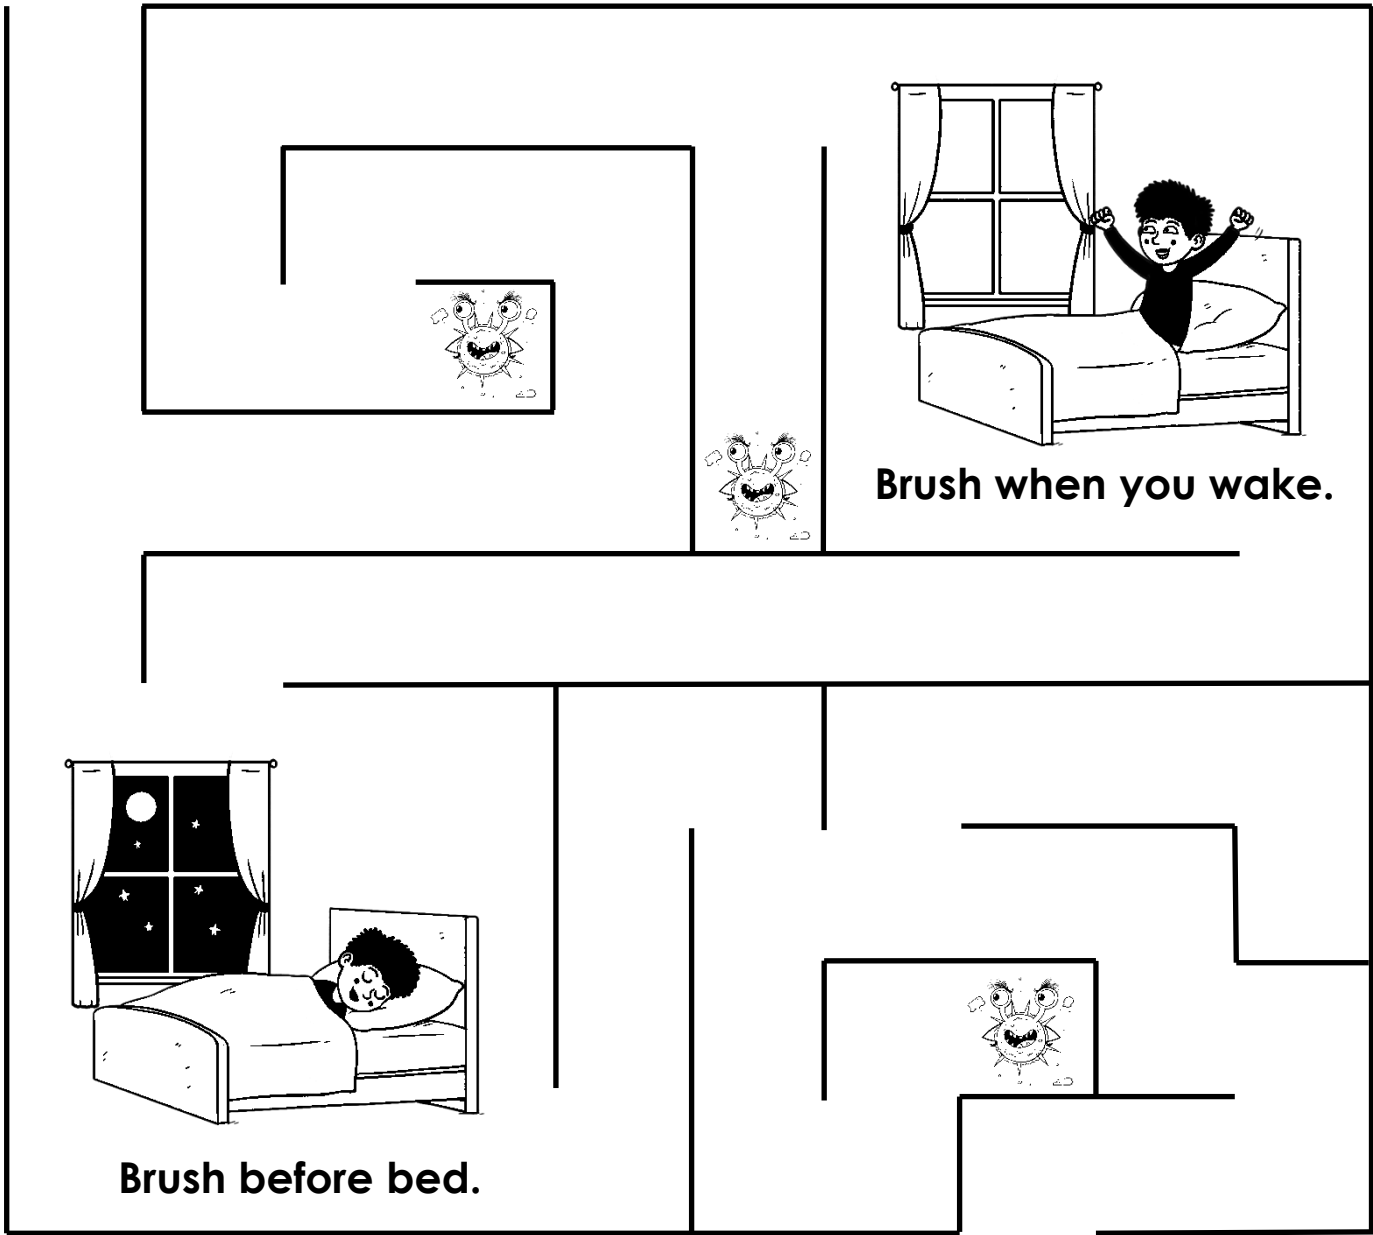

# Fluoride toothpaste keeps teeth strong

# Find your way through the maze to your shining smile

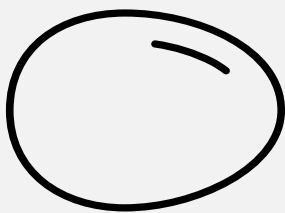

Start

# Eggs-periment experiment

When the experiment finishes, draw what happened.

Egg in water

Egg in sugary  
fizzy drink

Egg in high-sugar  
orange juice

Egg in vinegar

Which liquids damaged the egg?

.....

.....

Draw a happy tooth being protected by toothpaste.

It is important to brush our teeth because:

- ☐ fluoride toothpaste shields our teeth.
- ☐ food can stick to our teeth.
- ☐ we need to brush away Sugar-Bugs.

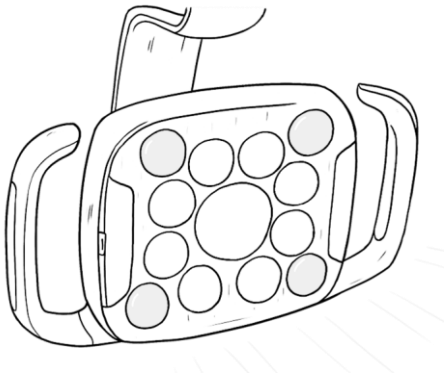

# Colour in “at the Dentist”

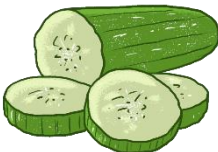

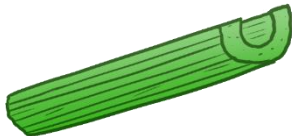

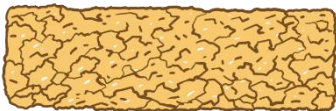

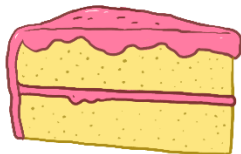

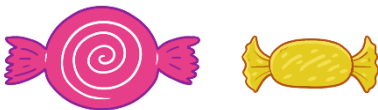

I am a **dentist**.  
I help you to keep  
your teeth healthy  
and clean.

I am a **dental  
nurse**. I help the  
dentist to care for  
your teeth.

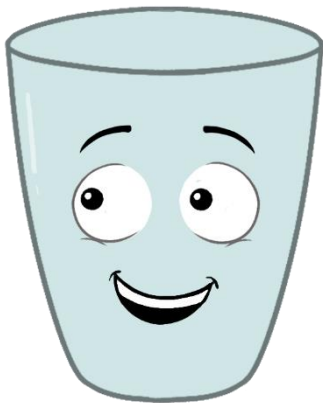

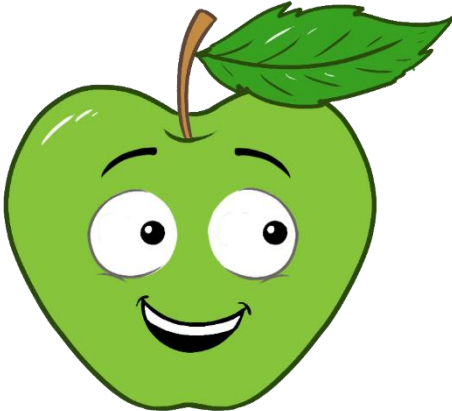

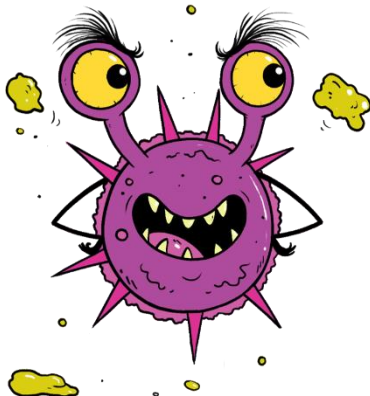

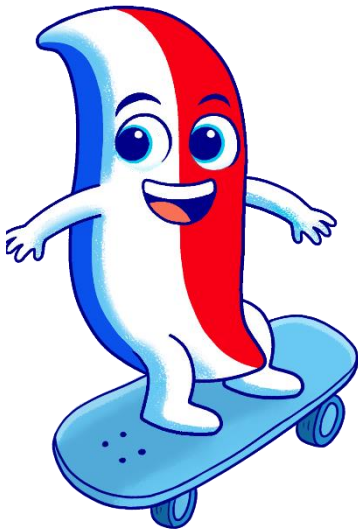

I am a  
**receptionist**.  
I help book your  
appointments.

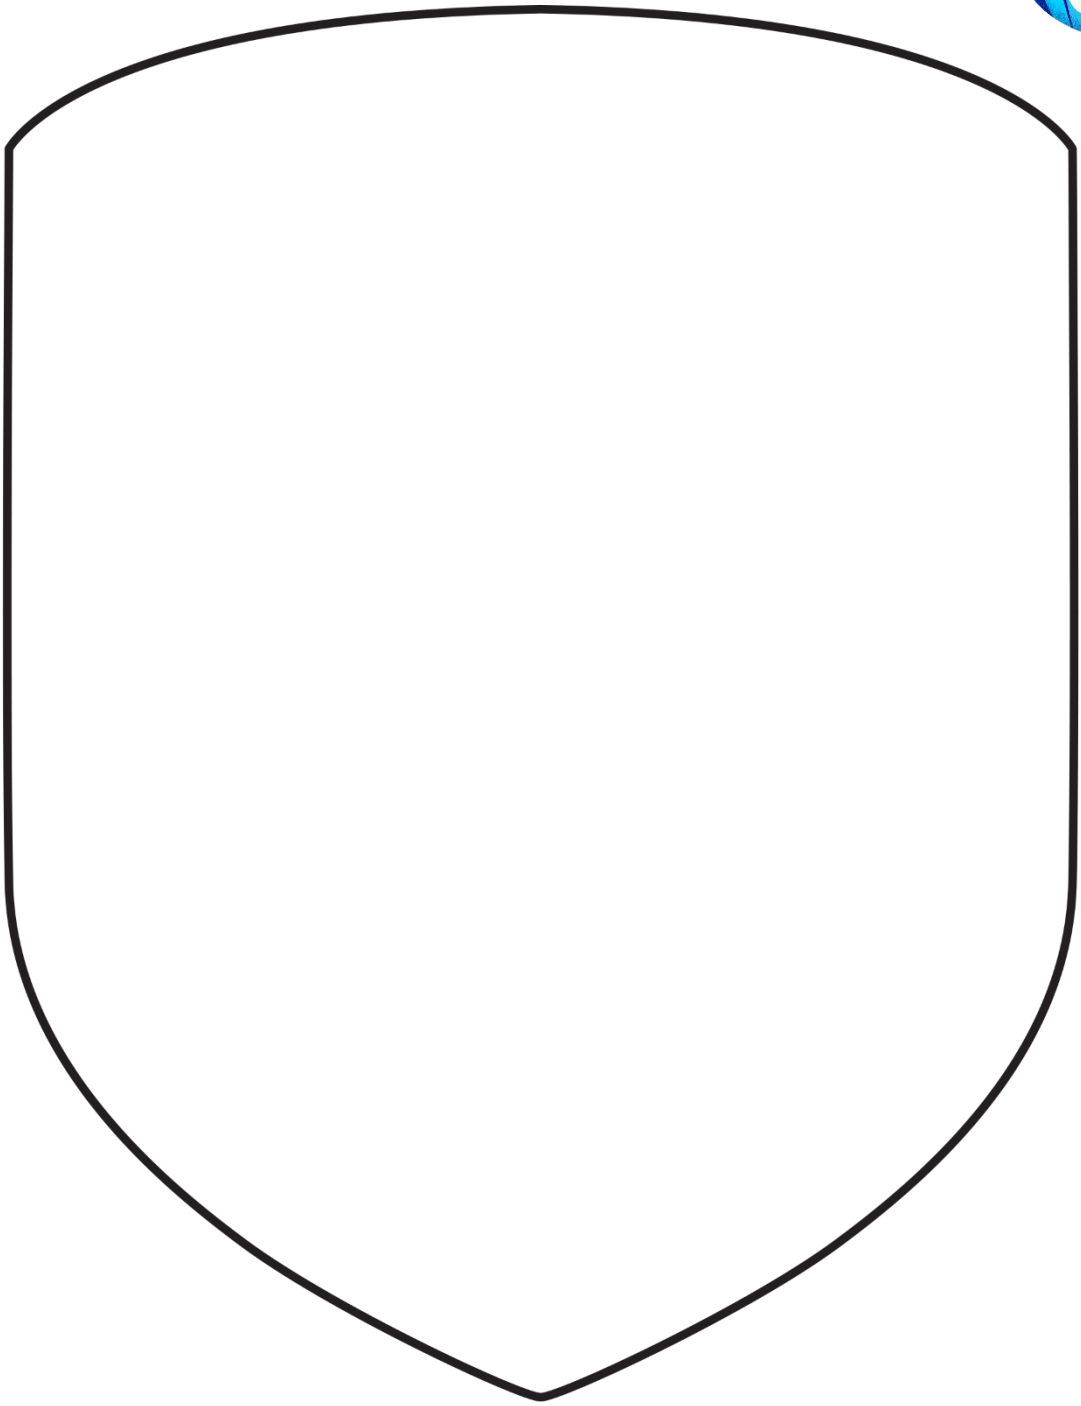

# Circle all the tooth-friendly foods and drinks

Use these  
images to  
tell a story

# Design a sticker

Thinking about what you have learnt, what would you like to see on a sticker? What is your message? Keep it simple and clear. Get creative!

# Help Freshy to defeat Sugar-Bug!

Name .....

Sugar-Bug wants you to eat and drink sugary snacks all day long then not brush your teeth. Eeek!

Draw what Freshy wants you to do
